Assessment: (derived from information available on open sources) for the 28-29 Jan Demonstration in Ottawa:

- Trucking convoys driving slowly on highways could cause travel delays for commercial or personal vehicles on major highways.
- The trucking convoys gathering in Ottawa could severely impact the travel of commercial and personal vehicles within the City.
- Ottawa Police, the OPP and the RCMP are aware.
- Since most government employees are working remotely, the disruption to government activities is expected to be minor.
- INTERSECT is indicating that the situation remains fluid and all affected NCR police agencies, as well as the City of Ottawa, are aware of and coordinating a response to the progress of the various convoys.
- INTERSECT has set up an activation call on 26 Jan at 0800 at which point they expect to have a more accurate picture of the anticipated impacts.
